

Consent to be included in a student database

Some programs are seeking to collect student data for [inclusion in a student database](#) for use in educational research and program improvement. To support this use of data, PAEA accepts applications from member programs to access their own consenting students' identified (i.e., *including* consenting students' names) or deidentified (i.e., *excluding* students' names and other personally identifying information such as ZIP code) MSS responses.

The Physician Assistant Education Association (PAEA) will only release your data to **XX** with your written consent and if at least 50% of your cohort completes this survey. You have the right to withhold consent without penalty. If you do not consent, PAEA will never release your data to any parties and will store your data according to the standard confidentiality and privacy protections outlined previously. If you choose not to release your data to **XX** you can still complete the survey and are eligible to win any prizes associated with completing the survey.

If you consent to release your **identified** data to **XX**, your first and last name will be supplied to your program before being permanently removed from the PAEA database.

If you consent to release your **de-identified** data to **XX** your PA program will protect this information using the standards and protections detailed in their IRB agreement with their home institution and may not share your data with any external individuals or parties.

If you consent to releasing either your identified or de-identified data, **XX** will protect this information using the standards and protections detailed in their IRB agreement with their home institution and may not share your data with any external individuals or parties.
